**UP Fintech Holding Limited Reports Unaudited Second Quarter 2020 Financial Results**

BEIJING, China, August 18, 2020 — UP Fintech Holding Limited (NASDAQ: TIGR) (“UP Fintech” or the “Company”), a leading online brokerage firm focusing on global Chinese investors, today announced its unaudited financial results for the second quarter ended June 30, 2020.

“We are happy to report strong growth in the second quarter of 2020”, stated Mr. Wu Tianhua, CEO and Director of UP Fintech. “Total revenues were US\$30.1 million, a 121.8% increase from the second quarter of 2019. Our platform is continuing to attract new users as we continue to invest in expanding its capabilities; the number of accounts with deposits increased by approximately 33,800 this quarter, the highest quarterly growth in our operating history, and total accounts with deposits increased 76.7% on a year over year basis. Clients continued to entrust us with more assets; total client account balance as of June 30, 2020, rose 132.9% year-over-year to US\$8.3 billion.”

In addition to our core brokerage business, other business units also performed well. We saw good momentum in the U.S. and Singapore in terms of user acquisition, and we gradually started to use Marsco Investment Corporation to self-clear. In the second quarter, we participated in eight U.S. IPOs and were an underwriter for NetEase’s Hong Kong IPO, maintaining our leadership position as the top underwriter for China based issuers by deal count. Our ESOP management business also continues to grow rapidly. We added 16 new clients this quarter and now we can provide a comprehensive solution to handle clients whose plans span multiple regions and entities. We believe our excellent system and outstanding service capacity will continue to attract potential clients to choose us as a long-term ESOP partner.

The Company commenced its share repurchase program on April 1, 2020 and between that day and the end of August 17, 2020, the company repurchased 695,287 ADS for an approximate consideration of US\$2.2 million.

**Financial Highlights for Second Quarter 2020**

- **Total revenues** increased 121.8% year-over-year to US\$30.1 million.
- **Total net revenues** increased 124.6% year-over-year to US\$28.2 million.
- **Operating income** increased to US\$5.1 million from negative US\$2.6 million in the same quarter of last year.
- **Non-GAAP operating income** increased to US\$6.8 million from negative US\$1.5 million in the same quarter of last year.
- **Net income** increased to US\$2.6 million from negative US\$2.0 million in the same quarter of last year.
- **Net income attributable to UP Fintech** increased to US\$1.1 million from negative US\$1.9 million in the same quarter of last year.
- **Non-GAAP net income attributable to UP Fintech** increased to US\$2.8 million, from negative US\$0.8 million in the same quarter of last year.

## Second Quarter 2020 Financial Results

### REVENUES

Total revenues were US\$30.1 million, up 121.8% from US\$13.6 million in the same quarter of last year.

Commissions were US\$18.8 million, up 178.2% from US\$6.8 million in the same quarter of last year, driven by an increase in our user base and market activities.

Financing service fees were US\$1.7 million, down 10.9% from US\$1.9 million in the same quarter of last year, primarily due to a shift in the number of fully disclosed accounts versus consolidated accounts, which generate interest income.

Interest income was US\$7.1 million, up 116.2% from US\$3.3 million in same period of last year. This was primarily due to the increased number of consolidated account customers and higher margin and securities lending balance compared to the same quarter of last year.

Other revenues were US\$2.5 million, up 54.1% from US\$1.6 million in the same quarter of last year, primarily due to higher revenue from IPO distribution services.

Interest expense was US\$1.9 million, an increase of 87.7% from US\$1.0 million in the same quarter of last year, in line with the increase in interest income.

## **OPERATING COSTS AND EXPENSES**

Total operating costs and expenses were US\$23.1 million, an increase of 52.4% from US\$15.1 million in the same quarter of last year.

Execution and clearing expenses were US\$2.9 million, an increase of 391.6% from US\$0.6 million in the same quarter of last year, due to an increase in the number of consolidated accounts as well as an increase in trading volume.

Employee compensation and benefits expenses were US\$11.3 million, an increase of 39.0% from US\$8.1 million in the same quarter of last year. This increase was primarily due to the headcount increase of 33.9% compared to the second quarter of last year.

Occupancy, depreciation, and amortization expenses were US\$1.1 million, an increase of 41.9% from US\$0.8 million in the same quarter last year, due to the increase in overseas office space and relevant leasehold improvements.

Communication and market data expenses were US\$2.1 million, an increase of 21.1% from US\$1.7 million in the same quarter last year, due to rapid user growth and expanded market data usage.

Marketing and branding expenses were US\$2.9 million, an increase of 47.7% from US\$2.0 million in the same quarter last year, in line with higher user growth this quarter.

General and administrative expenses were US\$2.8 million, an increase of 43.2% from US\$1.9 million in the same quarter last year, primarily due to increased professional services expenses resulting from business expansion.

## **OPERATING INCOME/LOSS AND NET INCOME/LOSS ATTRIBUTABLE TO UP FINTECH HOLDING LIMITED**

Operating income was US\$5.1 million, as compared to an operating loss of US\$2.6 million in the same quarter of last year. Non-GAAP operating income was US\$6.8 million, as compared to a non-GAAP operating loss of US\$1.5 million in the same quarter of last year. A reconciliation of non-GAAP financial metrics to the most comparable GAAP metrics is set forth below.

Net income attributable to UP Fintech was US\$1.1 million, as compared to a net loss of US\$1.9 million in the same quarter of last year. Net income per ADS — diluted was US\$0.008, as compared to a net loss per ADS — diluted of US\$0.014 in the same quarter of last year.

Non-GAAP net income attributable to UP Fintech, which excludes share-based compensation, was US\$2.8 million, as compared to a US\$0.8 million non-GAAP net loss attributable to UP Fintech in the same quarter of last year. Non-GAAP net income per ADS — diluted was US\$0.020, as compared to a non-GAAP net loss per ADS — diluted of US\$0.006 in the same quarter of last year.

For the second quarter of 2020, the Company's weighted average number of ADSs used in calculating diluted net income per ADS, was 142,783,496. As of June 30, 2020, the Company had a total of 2,114,164,861 Class A and B ordinary shares outstanding, or the equivalent of 140,944,324 ADSs.

## **CERTAIN BALANCE SHEET ITEMS**

As of June 30, 2020, the Company's cash and cash equivalents and term deposits were US\$93.0 million, compared to US\$125.0 million as of December 31, 2019.

### **Use of non-GAAP Financial Measures**

In evaluating our business, we consider and use non-GAAP operating income or loss, non-GAAP net loss or income attributable to UP Fintech Holding Limited and non-GAAP net loss or income per ADS — diluted as supplemental measures to review and assess our operating performance. The presentation of the non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with the United States Generally Accepted Accounting Principles (“GAAP”). We define non-GAAP operating income or loss as total net revenue minus total operating costs and expenses, plus share-based compensation. Non-GAAP net loss or income attributable to UP Fintech Holding Limited is GAAP net loss or income attributable to UP Fintech Holding Limited excluding share-based compensation. Non-GAAP net loss or income per ADS - diluted is non-GAAP net loss or income attributable to UP Fintech Holding Limited divided by weighted average number of diluted ADSs.

We present these non-GAAP financial measures because they are used by our management to evaluate our operating performance and formulate business plans. Non-GAAP net loss or income attributable to UP Fintech Holding Limited enables our management to assess our operating results without considering the impact of share-based compensation. We also believe that the use of these non-GAAP financial measures facilitates investors’ assessment of our operating performance.

These non-GAAP financial measures are not defined under GAAP and are not presented in accordance with GAAP. These non-GAAP financial measures have limitations as an analytical tool. One of the key limitations of using these non-GAAP financial measures is that they do not reflect all items of income and expenses that affect our operations. Share-based compensation has been and may continue to be incurred in our business and are not reflected in the presentation of non-GAAP net loss or income attributable to UP Fintech Holding Limited. Further, these non-GAAP financial measures may differ from the non-GAAP financial information used by other companies, including peer companies, and therefore their comparability may be limited.

These non-GAAP financial measures should not be considered in isolation or construed as alternatives to total operating expenses, net loss attributable to UP Fintech Holding Limited or any other measure of performance or as an indicator of our operating performance. Investors are encouraged to review these historical non-GAAP financial measures in light of the most directly comparable GAAP measures. These non-GAAP financial measures presented here may not be comparable to similarly titled measures presented by other companies. Other companies may calculate similarly titled measures differently, limiting the usefulness of such measures when analyzing our data comparatively. We encourage investors and others to review our financial information in its entirety and not rely on a single financial measure.
